

## Summer GQ Instructions

Well, you made it to the summer GQ! This one is a little simpler to set up. There is only 1 flag that **MUST** be a stand along flag, please take note of that.

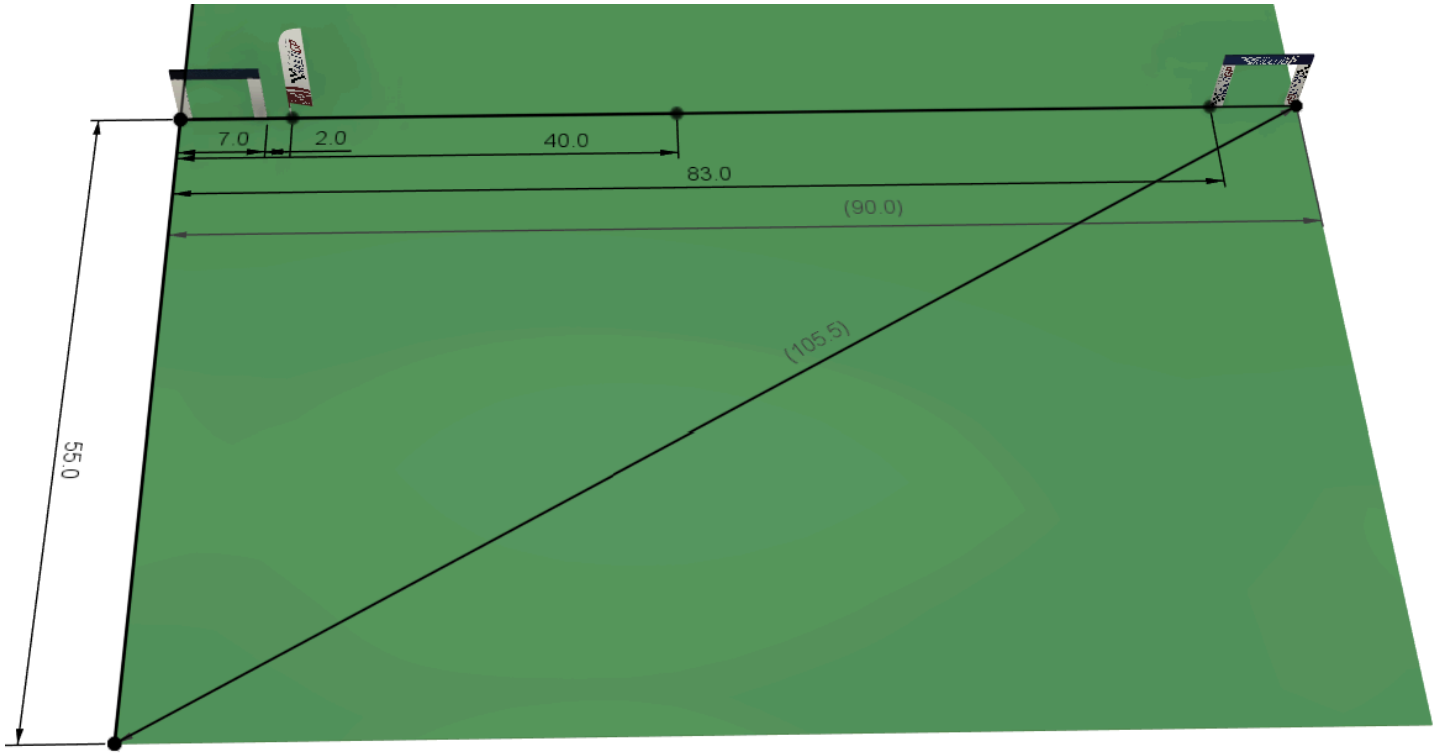

Step 1.

- Lay out the long tap measure 125ft
  - Place Gate Rebar at 55 ft
  - Cone at 85 ft
  - Gate Rebar at 125 ft

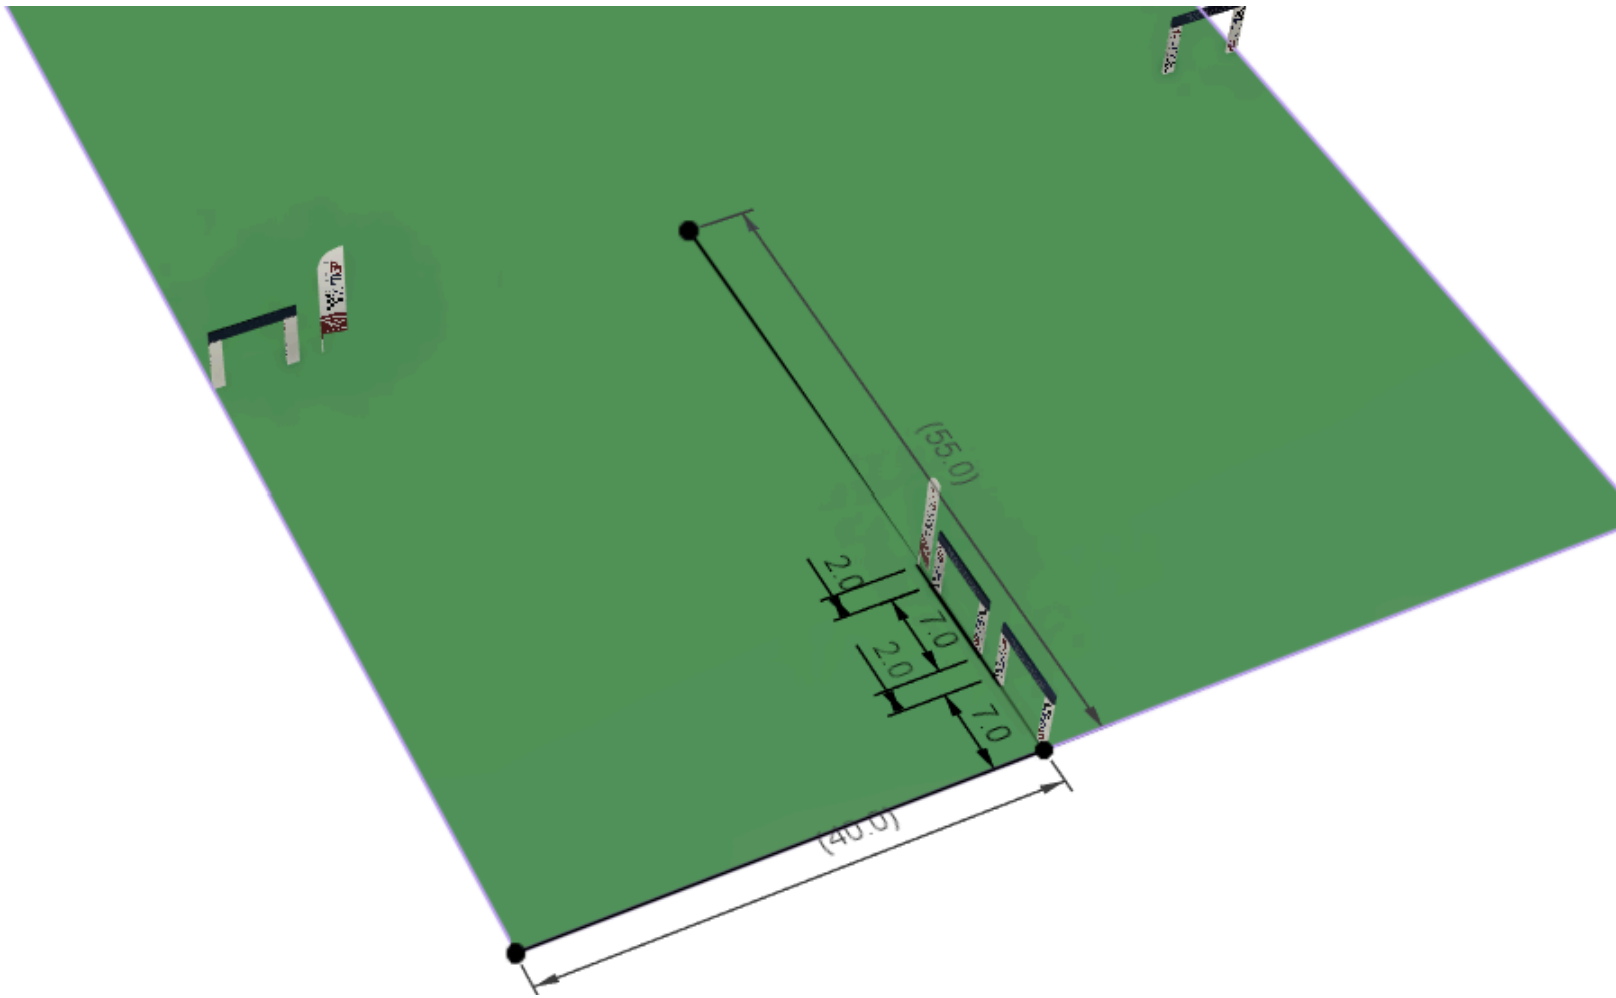

Step 2.

- From the 55ft Rebar walk 90ft to meet the 105.5ft from the zero
- On the 90ft line
  - Place a Gate Rebar at 7ft, 83ft, 90ft
  - Place a cone at 40ft
  - Place a flag at 9ft. This flag can be free standing, or mounted on the gate your choice

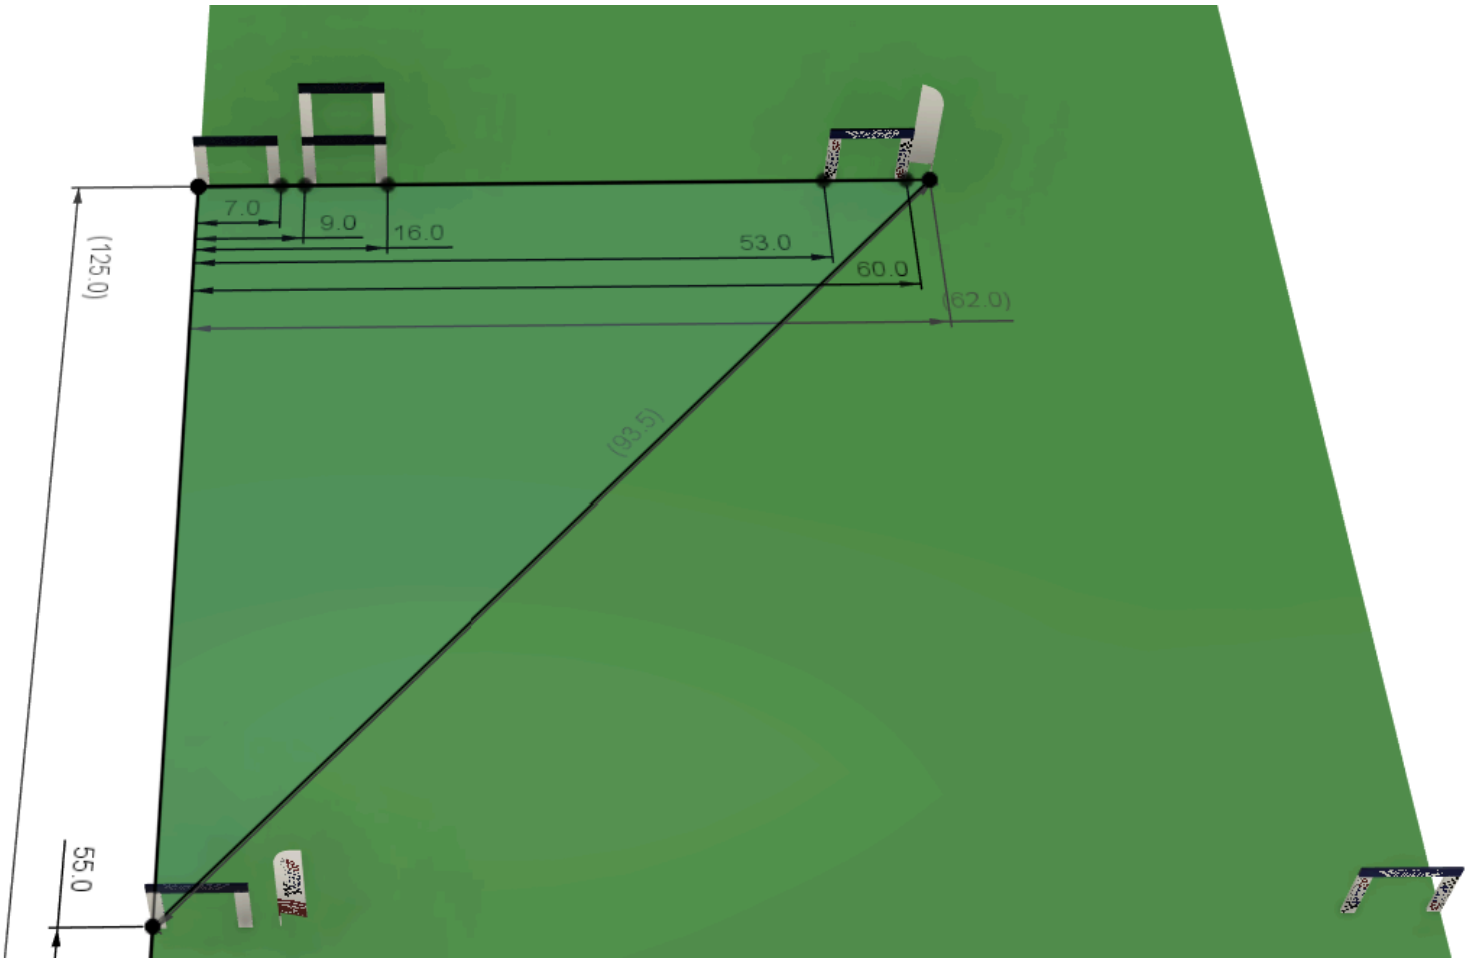

Step 3.

- From the 40 ft cone, walk straight down 55.0 ft
- From the zero, walk 40 ft to meet, place a gate rebar
- Along the 55ft line place gate rebar at the following
  - 7ft
  - 9ft
  - 16 ft
  - Place a flag at 18ft, OR mounted on the gate your choice

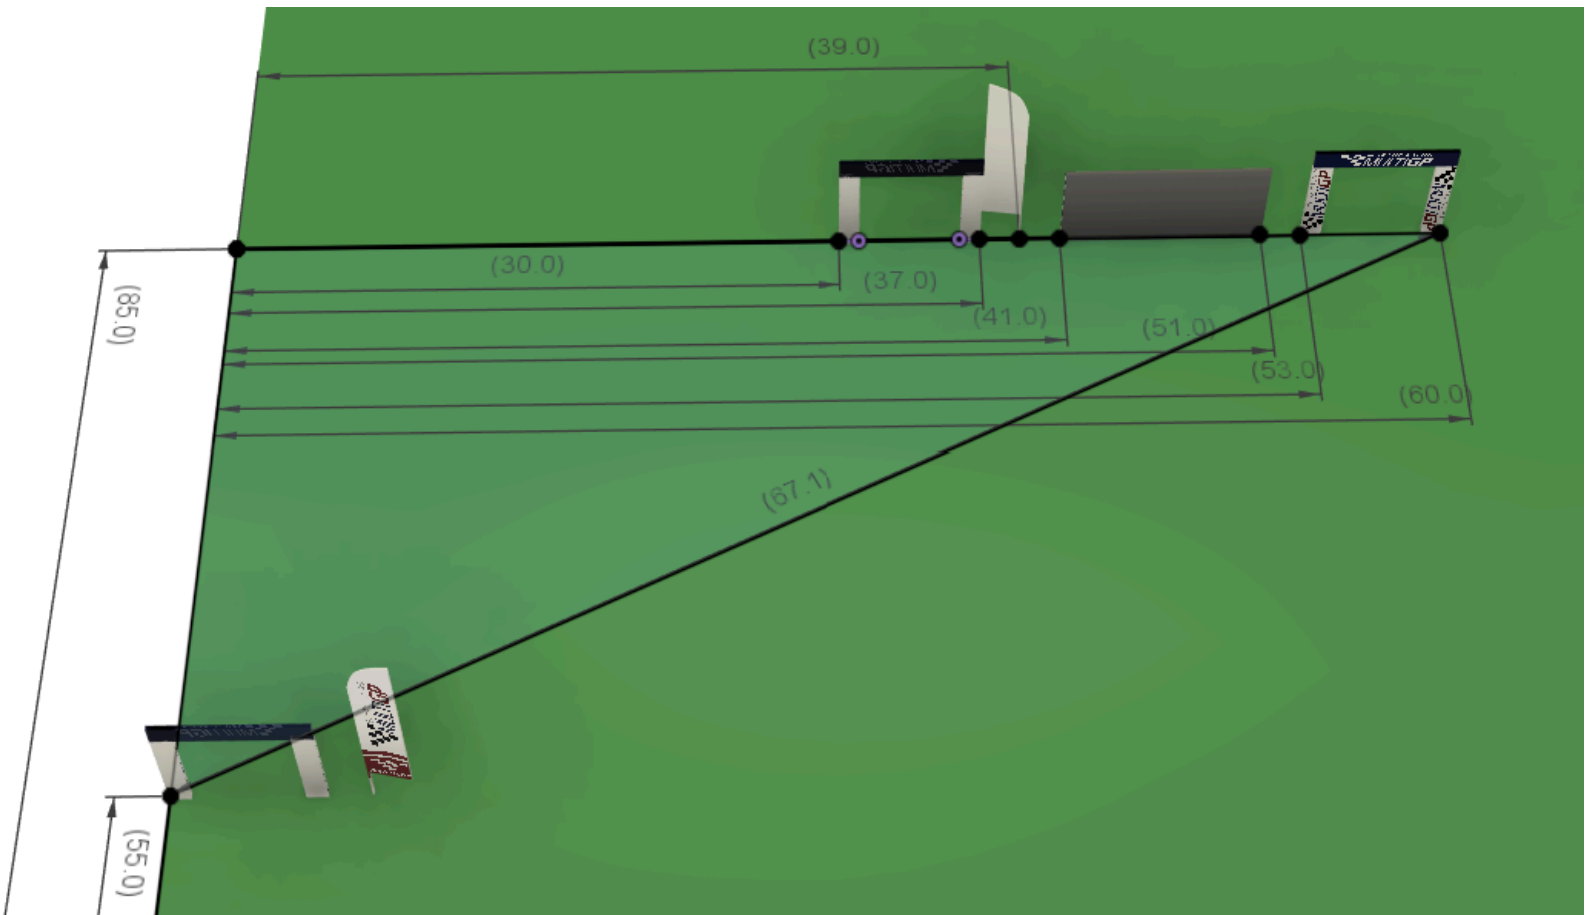

Step 4.

- From the 55ft gate rebar walk out 93.5 ft
- From the 125ft gate rebar walk out 62 ft, place a Gate spike
  - This gate can be stand alone or on a gate, but measuring for consistency
- Along the 62 ft line place the following gate Rebar
  - 7ft
  - 9ft
  - 16ft
  - 53ft
  - 60ft

### Step 5

- From the 55 gate rebar walk out 67.1ft
- From the 85 foot cone walk out 60 feet to meet and place a gate rebar.
- Place the following gate Rebar
  - 30ft
  - 37ft
  - 41ft
  - 51ft
  - 53ft
- Place a flag spike at 39 ft. This **MUST** be a stand alone flag here. You **CAN NOT** mount the flag on either the hurdle OR the Gate.

Holy Cow Bells that was fun!!! We only have one more flag to do!

Step 6.

- Measure from these two gate leg rebar the distance below. Where they meet, flag stake and flag!
  - 51 ft
  - 36.8 ft
